PROJECTS

- **To Do List Capstone:** This is my final project at Bottega University. It's a multi-page React app that utilizes CRUD functionality. I used HTML, SCSS and JavaScript for my frontend and a Python Flask database for my backend. https://devcamp-todo-list-capstone-cdb8691597bd.herokuapp.com/
- **Clarifai Face Recognition App:** This is my final project with an online coding program called Zero to Mastery (ZTM). It's a React app that uses HTML, CSS, and JavaScript along with NPM packages such as 'Tachyons' to create a dynamic frontend. It has sign-in authentication that utilizes an Express.js backend and a PostgreSQL Database. https://clarifai-facerecognition-app.herokuapp.com/
